[Help us continue to organize the community around the San Jacinto Waste Pits by contributing here.](#)

[Click here to download this message.](#)

[Chronicle editorial cartoonist Nick Anderson recently released the third installment](#) of his groundbreaking series exposing the 40 years of toxic contamination of Galveston Bay from the San Jacinto River Waste Pits. Texans Together and the San Jacinto River Coalition's Jackie Young have had notable victories but a full clean-up of the waste pits is the only final solution. [**You can help fund the fight to clean-up the San Jacinto River before more damage is done to the community and Galveston Bay, click here to contribute now.**](#)

Your support will fund our broad movement to compel the EPA to require the responsible parties to remove all the toxic wastes from the San Jacinto River. We must act now before the next hurricane scatters the toxic wastes indiscriminately, causing an environmental and health disaster; [**we need your help today!**](#)
